Sorghum Convention in Illinois. We find in the Prairie Farmer a

Mr. Hart, of Owen, made 1,000 galpaper rags, and gamble away the proceeds; he Milford: cane grown on old land, ten ble has burst, in other words, the United would rob his fellow man for a quid of tobac gallous of juice to one of syrup; made States are no more, all gone, gone, gone, not 350 gallons; believes that lime may knit tegether tight enough to stand the first be used to advantage for cleansing; the Implice to the Chinese; made 30 that our system of Government is a bubble barrels of syrup; found it required seven to ten gallons of juice to make afficiend England so severely have taken up their abode in the United States. From 10son showed samples from cane grown twenty millions, and can grow upon our own

hand and eight acres, lif the and fully ripe.

individuals given, the high, sandy soils, highly manured the previous year, gave the finest samples of syrup although not as large yields as richer lands gave. The largest yields were obtained where the seed was planted in drills one way, and four feet the other. The machinery used was vaious, and generally thought too expensive to be made profitable-with the small use for it. A difference of opinion prevailed about soaking the seed, some advising and some rejecting it, but all agreeing in the desirableness of early maturity. Mr. Fos-
